

Open Ocean
Gulf Stream Tank

New England Aquarium Expansion Master Plan

NEW ENGLAND AQUARIUM

Boston, Massachusetts

PROJECT FACTS

scope	Master Planning
size	79,000 SF
budget	\$43M for Exhibits
architects	Schwartz/Silver Architects
completion	undetermined

In 1992, Lyons/Zaremba Inc. began working with the staff and trustee committees of the Aquarium to develop an exhibit expansion program and master plan for Central Wharf that would advance the institution's long-range goals.

East Wing Master Plan Section View

The design focused on New England with a rocky coast inhabited by seals and sea lions, coastal wetlands, a continuous pathway through the offshore underwater world of Georges Bank, and a new 1.1 million gallon open ocean Gulf Stream exhibit.
